Important things to know as I get older: Accessing Prescription Drugs under the Medicare System

Presented by: Bill McKendree

This presentation is about the issues and problems faced by individuals as they try to maintain their prescription medication regimen – from their daily maintenance medications, to complex chemo therapies, to the medications taken while in hospital.

We will examine the characteristics of Medicare's coverage of the cost of medications: how it works, how it's failing and why it's failing, and how that failure impacts Medicare beneficiaries in obvious and not-so-obvious ways.
